book of Proverbs provides an instructional guide for all persons willing to deepen their connection with God. As educators, we have an obligation to apply Christian principles to our own lives -- both the personal and our professional dimensions of our existence. By applying Biblical principles to our personal life, we become instructive role models and mentors who embody the teachings of Christ. We avoid debauchery and other signs of sin, and we lead our students and coworkers toward a spiritual existence. Our personal life should be a microcosm of our public life, which is why immoral behavior at home or in private is never something we can hide. "The way of the guilty is devious, but the conduct of the innocent is upright," (Proverbs 21:8). With a Christian worldview, educational leaders are in a position to offer moral and spiritual instruction built on a firm foundation of wisdom and……

The Bible: NIV.

Leadership and Human Resources

Sunflower Electric Power Corporation certainly had compelling circumstances that motivated management to pursue cultural change. Having recently undergone debt restructuring and charges of mismanagement and corruption, employee morale was at an all-time low. The major priority for the company was to completely change its corporation culture with a huge emphasis on interpersonal relationships.

The culture of Sunflower was a command-and-control culture characterized by authoritative and conservative leadership. This culture had encouraged turf wars among managers and had inhibited effective job performance. Sunflower's new CEO, Chris Hauck, undertook many initiatives to change the culture to a competence culture in which leadership is visionary, sets high standards and encourages people to achieved new heights.

Competence cultures, unlike command-and-control ones pursue excellence and innovation. However, resistance to change would make Sunflower's cultural evolution a challenging one. There are four basic reasons for resisting change (Greene, Adam and Ebert, 1995):

First In, Last Out Review in Publishers eekly, Reed Business Information, a division of Reed Elsevier Inc. (2004)

Thomas M. Cunningham, Emergency Services Information Site: Leadership......
Hence, a more corporate attitude is being embraced by pro-vice-chancellors, but the salient question in this article is this: will a university be better off with corporate-style, bureaucratic leadership, or with leadership that pursues academic excellence and a pure mission of educating students?

What these authors bring to light in this article is that a higher rate of sales and growth for medium sized businesses can be realized when run by an owner that also manages the business. This survey of 5,710 respondents in the UK further pointed to the fact that when the owner-manager delegates authority, the operation is more professional and successful.

In this article the authors surveyed 17 principals in multicultural schools in Cyprus in order to find out what leadership styles worked best. The issue is relevant because immigration means new challenges for education leaders. About half of the 17 principals embraced a transactional leadership and "conservative multiculturalism" although another group adopted a style more in tune with what the authors call "critical multiculturalism embedded in critical and social justice leadership."
In the book titled Leadership Handbook of Management & Administration, Berkley (2008) is discussing how these challenges can be dealt with. This is accomplished by looking at a host of issues....

Leadership Its Importance for Today's Organization

In the lines of the Apostles, Bishops of particular Churches throughout the world in charge of particular diocese are part of the Church and form the College of Bishops when the College is united as a decision-making body under the leadership of the Pope. The College may exercise power over the Universal Church by coming together in an ecumenical council when the council is recognized by the Pope, the successor of St. Peter. Additionally, "certain bishops are granted special status and position within the Church by being elevated to the College of Cardinals. The primary role of the College of Cardinals is to act as special advisors to the Pope and to come together on the death of a Pope to vote for his successor" ("The Catholic Church Hierarchy," Catholic Pages, 2007). Finally, there is also a counsel, created after Vatican II known as the Synod of Bishops. This formal......
However, while I see that Boy Scouts has helped develop my empathy and my planning ability, I know that I continue to struggle with my ability to frame concepts for a group. Servant leadership is not about asserting power, but about developing rightful authority. Rather than force a group to do the leader's bidding, a servant leader's role is to persuade people to follow the leader's path. However, it is not really the leader's path that he asks people to follow. On the contrary, because a servant leader listens to people, respects all members of the group, and considers short- and long-term consequences, the path that the servant leader proposes should be one that is best for the group. Of course, that path may not seem best to the group because of competing interests, short-term worldview, or the fact that every plan is going to have pluses and minuses for......

Christian-Based Ethics in Business

Having strong ethics is vital to the success of an organization but often that component is bypassed in the name of profit. With a strong ethical foundation, an organization will perhaps face more obstacles but will also have a better opportunity for success and longevity. Society, particularly American society, has changed greatly within the past 50 years, and continues to evolve. And with those changes, value systems and the emphasis placed on them changes as well. At the same time, society has dealt with large technological advances. And of course, as knowledge and technology increase, new questions and situations arise to challenge society’s morals and ethics. Inadvertent disclosure of information becomes more prevalent as more people become involved in document handling. And the more documents that are handled by more people, conflict of interest may arise, with the potential to threaten the organization.

Particularly in......
The City Ethics project provides extensive assistance to public-sector organizations in the following areas: keynote speeches on government ethics, employee training at all levels, group presentations and workshops designed for specific organizational needs, guidance in the development of comprehensive ethics programs on a state, city, or county level, review of existing ethics programs, drafting and improving codes of ethics, ethical issue surveys, and guidance on the application of federal standards in ethics such as in connection with the Sarbanes-Oxley Act and the Federal Sentencing Guidelines.

Servant leadership is often based on Christian principles, although this is not required. It is a leadership concept that is designed to show that a leader can be a steward for the company, lead by example, help others, and not have to use any of the more ‘heavy handed’ leadership styles. While the servant leadership style is more often employed by women, men are becoming increasing more aware of (and more interested in) this particular style, because it seems to work well. The easiest way to show what servant leadership is would be to discuss the work of Stephen Covey, as he advocates this style in "The Seven Habits of Highly Effective People" and many other books.

Even though Stephen Covey is seen by many to be extremely important when it comes to management and effective individuals Covey himself appears to be somewhat scattered and disorganized. This is not actually……

Leadership of Rudolph W Giuliani

autobiography Leadership, written by udolph Giuliani and Ken Kurson as the main resource for this biography of Giuliani. I have chose udy Giuliani for exemplary leadership because of his charisma, his fearless attitude, and the way he managed the crisis in New York City after the terrorist bombings of September 11, 2001. While Mr. Giuliani certainly is not a perfect man, he showed remarkable skill, empathy, and leadership when New York City (and the nation) needed it the most.

In addition, Mr. Giuliani is a charismatic man, and before the terrorist bombings, he was a controversial leader at best. Not everyone liked or admired him. He sometimes seems to have an abrasive and grating personality. I was interested to see how his persona before and after the terrorist attacks changed, and how he came to be a hero in the hearts and minds of a nation that had largely ignored……

Leadership Techniques

Martin Luther King Junior -- the Leader

Martin Luther King Junior was born to a Baptist minister in the year 1929 in the city of Atlanta, Georgia. In Howard Gardner's book, Leading Minds, King referred to his childhood and explained that the first twenty-five years of his existence were very comfortable years. He was not bothered about much except going to school and doing the work he was asked to do (Gardner, 1995). He was raised in the father's actions and also got his bachelor of divinity in 1951 and the doctoral in 1955. Gardner highlights that while King's personal philosophy hadn't coalesced, he was thinking about the bond between an individual's relationship to God and their resolve for social activism on the planet. He seemed to be trying to reconcile his personal encounters as part of the standard, psychologically suffused black chapel with rather abstruse concerns of latest Protestant......

I agree with the author’s conclusion that the latest round of troubles is destined not to be the last, though I do not think it is because of anything inherently incompatible between the two religions or cultures, but rather because people tend to dislike outsiders, and territorialism on a societal scale tends to get worse when socio-economic situations worsen, too. This is the current case in India.

I do not think that Indians, Christian or Hindu, are any worse than anyone else in this regard. It is just one of the more depressing aspects of human nature, it seems. The article does not give much information about religion, but a lot……
Leadership Competencies the Accelerating Pace

In traded industries where there is fierce competition, it is not possible to pay men more than equally productive women -- every little disadvantage can be fatal to a company's survival. This means that gender equality emerges faster in these industries, as U.S. evidence shows. On virtually every criticism of globalization, one can find good, rather than bad, things to say. So globalization does have a human face. The really interesting question is therefore what can people do through institutional design and policies -- both domestic and international -- to improve it.

The accelerating pace of globalization, communications, and technological innovation; the changing patterns of cross-border capital flows; the fluid state of corporate mergers and partnerships; all these have created -- and will continue to create for the foreseeable future -- fundamental shifts in the ways in which business is conducted. Where many old-fashioned -- and still widely current……

In the latest edition of Malphurs's book Advanced Strategic Planning, the author remains consistently committed to the goal of helping ministers develop the most effective and successful ministries possible. Strategic planning refers to the large and diverse checklist of activities relevant during the development of a new ministry or during major structural or thematic changes to existing ones. Without a strategy or a roadmap, notes Malphurs, many churches are doomed to failure. The author walks the reader through the process of strategic planning from the pre-planning and visionary stages through to the pragmatic and logistical issues like fundraising and financial management, through the necessity for ongoing assessment. Although the book would be strengthened with additional sections on risk and crisis management, Malphurs does a good job with the material.

Strengths

The strengths of the Malphurs book……

SWOT of a Christian Business Leader/Marketer

Strengths

· Christian faith that is united to the brand of the business and used in marketing campaigns to develop brand loyalty among consumers. The faith can be leveraged to gain traction with consumers and increase the brand’s popularity.
· Large base of Christian consumers who are loyal to Christian companies like Chick-fil-A and Hobby Lobby and In-N-Out Burger (Edouard, 2015).
· Strong score on the Faith Equality Index, which Christian consumers use to determine which companies they will patronize (Wetzstein, 2015).
· Positive track record in the community in terms of corporate social responsibility—the business supports Christian projects and programs in the community.

Weaknesses

· By promoting the Christian identity, the business risks polarizing consumers and turning them off from the brand.
· The business lacks a broad-based appeal in which Christian consumers can feel satisfied with the company’s values and non-Christian consumers……

Social Advocacy in Counseling

Social advocacy has been described by some counseling theorists as a “fifth force” paradigm that should be considered to rival if not replace other major counseling psychology paradigms regarding behavior and mental illness (atts, 2009). This paper briefly discusses what social justice/advocacy is, the debate regarding its status as a paradigm in counseling psychology, and how social advocacy can enhance both the client's experience and life and the professional counselor's personal, professional, and ethical obligations to helping others.

Social Justice

Social justice is fairness or impartiality exercised in society, specifically as it is implemented by and within different levels of social classes of a society. A truly socially just populace would be based on the principles of solidarity and equality, would consider and maintain values, human rights,
Leadership Styles in Movies / Management Lessons about Leadership styles in Movies

Leadership is a major organizational resource, demonstrated by individuals via a wide range of skills and talents (Lester, 2015). Leadership represents a key means by which individuals change others' minds, moving people and organizations forward for achieving established aims (IAAP, 2009). Several leadership models exist, with some of them proving to be rather effective and helpful. However, rapid transformations in the world, particularly in the last decade, owing to emergence of globalization and extensive adoption of information technology, have led to drastic changes in workforces' behavior and expectations. One cannot now lead a workforce using conventional techniques of the past, if one desires to leverage staff talents and achieve optimal performance. A majority of successful companies today seek knowledge workers -- well-trained, skilled and experienced individuals desiring to utilize their abilities to their optimum potential in a work……

Roland a Song of Leadership

In this duty as well as in others, Roland somewhat pales in comparison to the unquestionable figure of leadership cut by Charlemagne, who not only emerges victorious and unscathed where Roland and his men are killed, but also establishes a clear system of justice that both makes sense to the participants and fully serves the needs of his men and their shared values and beliefs. In other words, it is necessary for a leader to maintain leadership, both by presenting a continually strong presence at the head of the community, and by ensuring that there will be a common community for this leadership to preside over in coming years and generations.

It is impossible to state with any certainty whether or not Roland's men perceived him as a good leader overall or not; this is not something that is directly addressed in The Song of Roland nor are there enough......

Multicultural Leadership Diversity in the Workplace

Being a job coach is an honor, a privilege, and even a necessity in today's workplace environment. Based on evidence highlighting the effectiveness of coaching, more and more companies are “opting for team coaching as a more effective way to improve team capability and performance, while at the same time saving on costs,” (Stout-Rostron, 2016, p. 238). The friend in question should absolutely insert herself as a coach to help manage and leverage diversity in the organization and promote an organizational climate of inclusivity. In fact, someone with an international background is perfectly poised to guide organizational policy and practice regarding diversity and communication.

Religious Diversity

Religion can be a central component of individual identity construction and community cohesion. Just as employees have rich social and family lives outside of their place of employment, they also observe religious practices that coincide with their personal beliefs or their cultural background. While......
Shepherd: Pastor, Elder, Overseer

The Shepherd

The words elder, overseer, and pastor all describe the same authority of leadership within the universal church. However, since different denominations use these terms as though there are separate entities, the three offices are thought to have distinct meanings. Within the ultimate authority of the Bible and the Scripture, the terms elder, overseer, and pastor overlap in meaning. Indeed, Apostles Paul and Peter continuously interchange the offices of elder and overseer with the gift of pastor or shepherd. From this, it is clear that -- for the people they minister to, for, and with -- pastors are intended to have oversight. Thus, it is possible to say with confidence that those who have the gift to pastor also hold the office of elder and overseer.

REBT and Christian Principles Rational Emotive Behavioral

The goal of rational emotive behavioral therapy (EBT) is to help people address and resolve behavioral and emotional problems so that they can lead fuller, happier, and better lives (Dryden, 2005). In many ways, Christian principles are similar, as a relationship with Jesus Christ often helps people live their lives in better ways, feel happier, and find a sense of fulfillment (Nielsen, Johnson, & Ellis, 2001). Getting the two to work together, though, can be somewhat difficult because psychology and religion have long been at odds when it comes to how issues from the past should be handled. This does not mean that psychology and religion cannot work together, though, and because there are ways to tie them together it is possible to use both to help young adults with the issues with which they struggle……

Charismatic Leadership

strong leaders has been an important aspect of organizational development since the beginning of time. Compelling leaders possess a number of personality traits and skills that require constant development, and it has been demonstrated that leaders who possess charismatic qualities are likely to gain respect and admiration over those that lack this characteristic. Within the structure of organizations, one of the primary requirements for fostering charisma is the development of a vision, defined as a mental image of an idealized future for an organization (Awamleh and Gardner 346). Once a vision has been established in a leader's mind, it can only be successful once it is expressed to all levels of the organization. Outstanding leaders are able to establish their goals and objectives for the organization in a charismatic fashion. The following discussion will provide an analysis of charisma and its role in leadership development and will provide some influential……

Deposition of Jeannie Oakes, Ph.D

Today, there are more than one hundred thousand licensed psychologists practicing in the United States. These mental health professionals are in a unique position to provide individuals, groups, and American society with valuable counseling services for a wide range of mental health issues and mental disorders. This study uses a triangulated research approach to demonstrate that true psychology can be done only by Christians since only Christians have the resources that are needed to understand and transform the soul in healing ways. The first leg of the research approach consists of a review of the relevant literature, the second leg consists of a custom survey of 25 practicing American psychologists, and the final leg of the triangulated research approach consists of an exegetical analysis of relevant biblical verses concerning the human soul and its relevance for mental health professionals. Jesus’ Teachings Prayer & Christian Life

"He (Jesus) Took the Bread. Giving Thanks Broke it. And gave it to his Disciples, saying, 'This is my Body, which is given to you.'“ At Elevation time, during Catholic Mass, the priest establishes a mandate for Christian Living. Historically, at the Last Supper, Christ used bread and wine as a supreme metaphor for the rest of our lives. Jesus was in turmoil. He was aware of what was about to befall him -- namely, suffering and death. This was the last major lesson he would teach before his arrest following Judas’ betrayal. Eschatologically speaking, the above set the stage for the Christian ministry of the apostles, evangelists and priests. Indeed, every Christian is called to give of him or herself for the Glory of God and the Glory of Mankind. The message at the Last Supper was powerful. People have put themselves through……

Saladin and the Christian Crusaders

Saladin, or Salah al-Din, or Selahedin, was a twelfth century Kurdish Muslim general and warrior from Tikrit, in what is currently northern Iraq. Saladin founded the Ayyubid dynasty in Egypt. The Muslim leader was renowned in both the Muslim and Christian worlds because of his leadership and his military prowess. He was also seen as a chivalrous figure who showed mercy during his war against the Christian Crusaders. The image of Saladin developed in his lifetime and persisted long after so that he has remained a heroic figure much revered in both the Islamic world and the Christian world, the latter in spite of the fact that he opposed Western expansion into Islam and fought against the West in the Crusades. Still, he is idolized in literature and art and is often the subject for Western writers as for Islamic writers, though the two groups……
Bush & Clinton Leadership Styles

hen Cheney is seen, it is because he is usually attending a Republican fundraiser and attacking Democrats who criticize Bush’s war in Iraq. Gore was seen as a very open vice president whose work achieved very high visibility; Cheney works behind the scenes, and is believed to be very influential in the Bush administration in matters of fighting terrorism and war strategy in Iraq.

Bush is very much aware of one of his main political constituencies, the conservative Christian movement; this movement is anti-abortion and very negative about gay people. In fact, Bush has supported a constitutional amendment (which makes his conservative Christian supporters happy) that would ban gay marriage. Clinton, meanwhile, reached out to the gay community and initiated the “Don’t ask, don’t tell” policy toward gays in the military. Many gays were being pushed out of the military based on old suspicions and values.

Clinton was involved in……

Minority Woman as School Principals: What Works and Why Leadership Challenges Faced by Minority Principals

Words: 1261  |  Length: 5 Pages  |  Document Type: Term Paper  |  Paper #: 39977275

Minority Woman as School Principals and Leadership Challenges Faced by Minority Principals

When compared with corporate America, both the public and private American school systems may have more blatant glass ceiling settings because there are very obvious resistance movements towards gender and minority integration into administrative roles such as principals especially for positions in better schools or systems. The numbers do not lie -- consider the fact that women have traditionally comprised the majority of both the public and private school teaching forces yet, the majority of school administrators for these systems continue to be white males. This report therefore aims to discuss the roles of minority women as school principals, the inherent leadership and administrative challenges they may face as minority principals and what may or may not work for them and why.

Although this report happened to use some examples from the California school system to demonstrate some......

American Civil Right Movement Compare and Contrast

Words: 1837  |  Length: 6 Pages  |  Document Type: Essay  |  Paper #: 56064499

American Civil Right Movement

Compare and contrast the Southern Christian Leadership Conference (SCLC) and the Student Non-Violent Coordinating Committee (SNCC) on the basis of their leadership, philosophy, and tactics.

Philosophy

Southern Christian Leadership Conference (SCLC) was a civil rights organization that was initiated by African-Americans in 1957 (Fairclough, 2001). The movement was primarily aimed at ending the segregation and discrimination against the black African population in the U.S. The core philosophy of SCLC revolved around to seek civil rights and economic justice for the people of Southern States having majority of African-Americans.

Student Non-violent Coordinating Committee (SNCC) actually aimed achieving same objectives as those of SCLC but through non-violent sit-in and defiance of segregated dining and lunch services. The core philosophy of SNCC was also eliminating segregation but the mission statement was
Leadership

The most prominent leader of SCLC was Martin Luther King, Jr. Other prominent…..

Political Action Groups

Communicating in Small Groups

Christian fellowship ministry is the replication and continuation of ministry of Jesus Christ and of His Holy Spirit through His disciples on earth today. Each ministry is formed as a small group or team and in fulfillment of the teachings of the Holy Bible, which read: “But if we walk in the light, as he is in the light, we have fellowship with one another, and the blood of Jesus, his Son, purifies us from all sin (1 John 1:17).” A Christian who has a true and strong fellowship with God is drawn to a fellowship with other Christians who, like himself or herself, walk in the same light, have received forgiveness and have a personal relationship with God.

The Scriptures say that, before Jesus Christ began His public ministry, John the Baptist was already preaching and had a small group of followers, whom John……

Soul Is Rested Movement Days

Clearly, the disadvantages of conducting interviews to interpret history is that often, memories become cloudy and/or lost, and people, as they age, remember things differently. Therefore, some of these memories could be faulty, or at least flawed, and yet, there is no mention of that in the book. There are also quotes in the interviews, and it is hard to imagine that anyone could remember exact words after even 10, 15, or 20 years after the incidents occurred. That means that some of these interviews, although they certainly mean well, could be inconsistent, and that takes away some of the historic notability of this book.

In conclusion, this is a very emotional and personal look into the Civil rights Movement and how it began, grew, and helped obtain equal rights for
Malcolm Martin Luther King Was

A few thousand people gathered at the venue that evening, and when Dr. Martin Luther King took up the mike and spoke that he was 'tired' of being discriminated against and segregated all the time and that it was time to start changing. The principles to use, he stated were those of non-violence and non-co-operation, and these would bring about justice and freedom for his people who were undergoing constant humiliations at every step in their lives. Persuasion, and not coercion, and Christian love, and a basic desire to listen to one's own conscience and act according to the dictates of the conscience must be the motto to be followed, he said, and this would bring about more results than those of violence and bloodshed. During his speech, Martin Luther King Jr. stated that if his people would protest against these constant indignities with courage, and not with violence, with......

Religious Teacher Why Do I

Trees take in carbon dioxide (which includes pollution in the air) and give off oxygen so we can all breathe, and so God's plan can be carried through. The teaching of values, morals, and discipline must be part of the program for a Catholic teacher, and also the involvement of parents brings the school, the Church, the children and the families together in a fellowship of learning and praying.

As was mentioned earlier in this section, involving parents in their children's learning activities is a powerful way to keep our faith strong and growing in the context of education and Christianity. This is particularly poignant because on page 9 of the "Our Catholic Schools" one of the major issues facing Catholic education is the "...inadequate home and parish involvement with schools," and we can mitigate this problem by working closely with children to get them inspired enough so they want......

C.O.R.E. And Its Role in the Black Freedom Struggle

Nearly one hundred forty years ago, a tall, and not very good-looking, bearded man stepped out onto a great, open field. His tired eyes wandered over the bloody ground, over the earth covered with corpses, over the scene of one of the greatest battles in American History, and his words rang out true and clear: “Our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal.”

Abraham Lincoln’s famous address gave meaning and purpose to all those young lives so tragically cut short. It etched forever in the minds of posterity the real aim behind that great war. e were a nation of free people. Subjection and slavery were banished for all time from our shores. Or were they? The Civil ar freed the slaves. A piece of……

Luther Rice and Adoniram Judson

A further development in American Baptism was the evolution of its missionary organization. The rapid growth of missionary zeal, partly as a result of the many accounts by missionaries such as the Judsons, soon resulted in more than one societal ministry supported by the convention.

Meanwhile, Dr. Carey informed Adoniram Judson that he might as well abandon Burma as a missionary destination. He related the experiences of his son William, who had been in the country for four years and was all but ready to give up.

. Unable to remain in India any longer, the Judsons then abandoned the Burmese idea in favor of Java or Penang. However, this was not to be. The East India Company continued hounding them to leave the country; the time-sensitive nature of their departure then led the couple to take the only ship available from Madras, which was bound for angoon in Burma……

Injustice anywhere," King went on, "is a threat to justice everywhere.

As to the social and racial injustices King is speaking of, a bit of background into conditions in the South - and specifically, in Alabama - is worthy of some space in this paper. In fact, just a few years prior to the civil rights activism in Birmingham (that saw King arrested and placed in a jail), the lynching of African-Americans in Alabama was not uncommon. The New York Times (August 30, 1933) reported that two "Negroes" were found lynched near Birmingham on a Sunday morning, but the good news was "mob murders have declined"; indeed, the paper reported, "...in the last ten years there have only been four lynchings" in Alabama. And on July 26, 1947, The New York Times quoted the Tuskegee Institute's data that "six out of every seven potential lynchings have been prevented" over the……

King, Martin Luther. Letter from Birmingham Jail. Essential Documents in American
in 1866, Stanton created the American Equal Rights Association, aimed at organizing women in the long fight for equal rights. In 1868, the U.S. Congress ratified the Fourteenth Amendment to the Constitution which "defined citizenship and voters as male" and excluded women; in 1870, Congress ratified the Fifteenth Amendment which also excluded women in favor of African-American males ("The History of Women's Suffrage," Internet).

At this point, the women's movement split into two factions, the National Woman

Suffrage Association, headed by Stanton and Susan . Anthony, and the American Woman Suffrage Association, a more conservative organization headed by Julia Ward Howe and Lucy Stone. y 1890, these two opposing factions joined forces to create the National American Woman Suffrage Association under the leadership of Elizabeth Cady Stanton (Gurko, 145)....... 

BIBLIOGRAPHY

Johnson (1992) lists four theological themes present in the book of Acts: the Holy Spirit, the life of the church, the discernment of god’s activity, and universality. The same four themes are present in the life and ministry of Jesus in Luke’s Gospel. Moreover, these are the four main themes that would become the bedrock of the early church itself. According to Johnson (1992), being able to recognize these themes not only enrich the reader’s understanding of the gospel, but also reveals the "consistent religious preoccupations that might not be obvious on the surface of his storytelling," (p. 14). These consistent religious preoccupations remain the cornerstones of Christianity.

The first theme is the Holy Spirit. So crucial is this theme Johnson claims that the book of Acts can even be considered the “Book of the Holy Spirit,” (p. 14). Luke refers to the “dramatic outpouring” of God, of course in......

Jesse Jackson -- Minister, Civil Rights Activist, Author

The life of Jesse Jackson has always been associated with a strong belief in the Christian faith. His activism in the Civil Rights Movement -- like that of his mentor, Rev. Martin Luther King, Jr. -- was based not just on social / racial justice, but in a powerful belief that God intended for all his children to be free, to have a chance at a good and decent life, and that heaven awaits those who fight for justice and fairness and live wholesome, productive lives. Among his many accolades, awards, and appointments, he was appointed “Special Envoy to Africa” by President Bill Clinton, and was awarded the Presidential Medal of Freedom in 2000 (Gale Biography). This paper sheds light on Jackson's career, his faith, his ministry and the impact he has had on American society.
