LOST Cause Press has published, on Microcard, every item we have been
Microcard, every item we have been able to find from the Wagner-Camp bibliography Plains and Rockies. We continue to search.

The first edition of H. R. Wagner's bibliography came out in 1920 after some 27 years' work of compilation. In 1937 a second edition was printed. From 1922 C. L. Camp shared the work with Mr. Wagner and revised the third edition. Included in this bibliography are books, magazine articles, Federal documents, some compilations and newspaper items of personal experience written between 1800 and 1865. Geographical scope includes the region lying between the Missouri River and the Sierra Nevada Cascades, from Mexico to the Arctic (with omission of Texas and what is now Western Louisiana — and in Canada everything East of the Red River).

The historical material we have assembled here on Microcard is essential to the student of pioneer history.

Approximately 537 volumes, postpaid…………………………………………………

Two new editions of Current Contents® are being born.

The next two noises we make in your library will be titled: Current Contents—Agricultural, Food & Veterinary Sciences and Current Contents—Engineering & Technology. Their goal is the same as yours. To help make the library a more efficient, meaningful source of information.

These are the sixth and seventh Current Contents® offspring of the Institute for Scientific Information. (The others: Physical Sciences; Life Sciences; Chemical Sciences; Education; Behavioral, Social and Management Sciences.) If they enjoy as much success as the rest of the family has known, we'll be very proud parents, indeed.

These new editions of Current Contents, like the others, will be published weekly. They will each cover over 700 significant journals in their respective fields.

And they will be current. Many contents
And they will be current. Many contents pages appear in advance of the publication's arrival in your library.

If your library doesn't use Current Contents, let us send you a free copy so you can evaluate its great worth for yourself.

If you are one of the many Librarians who already subscribe to other editions of Current Contents, let us send you free copies of these newest members of the family for your perusal.

After that we promise to be quiet... at least until we announce the arrival of the next edition of Current Contents.

**Ask for the new Johnson Reprint Catalogue — and we'll send it to you nine times.**

Six times a year, we follow-up our three catalogues with an informative newsletter that's also a complete updating supplement.

**Why?**

Well, within the months between catalogues, we republish hundreds of new titles. One of them might just be the one you're looking for—and we wouldn't want to keep you waiting. The newsletter is free and is issued bimonthly. It includes a cumulative, "since-January" list and —a new feature—an article about one of the many scholars and bookmen who serve as our consulting editors.

There's news about the book world, JRC, and comments on our new listings, too. To make sure that the Newsletters are always at your fingertips, we provide a durable, shelf-size folder with every subscription.

To subscribe, just write us. (And if you don't have a JRC Catalogue to update—just ask for it.)
