ISBN: 9781855392342
APA6 Citation: Ritchie, R., & Deakin-Crick, R. (2007). Distributing leadership for personalizing learning. Network Continuum Education
Additional Information

Additional Information: This is the first book to explore the relationship between new approaches to building leadership capacity in schools and the current policy driver of personalised learning. It builds on previous research by Ritchie on leadership and school improvement (Ritchie, 1999 (with Bell), 2000 (with Ikin), 2007 (with Woods)) and links this with his work on learning (Ritchie, 1997 [with Ollerenshaw], 2001) and Deakin-Crick's work on learning power (Deakin-Crick, 2006). It includes new case study material from schools. Dissemination and impact of this work is evident through local, regional, national and international CPD and invited keynotes and inputs (for example the South Gloucestershire Leadership Academy's International Symposium, July 2007). Ritchie was responsible for 50% of this item.

The Comprehensive Assessment of Leadership for Learning (CALL) is a school-wide leadership assessment and feedback system to support professional growth, leadership development and school improvement planning. A school-wide leadership assessment and feedback system for school improvement. The Comprehensive Assessment of Leadership for Learning (CALL) provides customized services and unique tools to support professional growth, leadership development, and school improvement planning. Scroll down to learn more about CALL, Four Domains CALL, and WIDA SIS. Learn More Request Demo. Focus on leadership. Idea in Brief. We know from hundreds of examples nationwide that extraordinary student outcomes are possible at the individual school level. These persistent rays of hope shine through even in the most challenging of educational environments. Breakthrough results in student achievement occur when the significant challenges our students face are met with an even greater level of teacher talent and dedication—when talented individuals work together to do extraordinary things. Yet we also know that these kinds of schools don’t develop randomly on their own; an essential ingredient behind each of LEAP Learning Framework for Personalized Learning. Personalized learning occurs when all learning is focused on, demonstrated by, and led with the learner, and connected meaningfully with mentors, peers and the community.⁹ Great Schools Partnership: Glossary of Education Reform. The Office of Educational Technology (OET) provides leadership for maximizing technology’s contribution to improving education at all levels. Personalizing the Learning Experience: Insights from Future Ready Schools. Follow. Personalized adaptive learning is a software that provides each student with an individualized learning experience by allowing them to progress along their unique learning path through the course content based on their knowledge, skills, and learning needs.
