The northward migration and the roots of change, 1915-1954 --  
Blacks in American culture, 1900-1970 --  

Responsibility: by James M. McPherson [and others].

Abstract:

This book is neither a simple bibliography nor an interpretive survey of the history and culture of black people in the United States. Rather it is an attempt to combine narrative, interpretation, and bibliography in a chronological and topical framework that will provide teachers, students, and
interested readers with an up-to-date guide to Afro-American history and culture. Utilizing an interdisciplinary approach, the authors have organized the history of black Americans into 100 topics, from Africa and the slave trade to life-styles in the urban ghettos of 1970. Many of the topics are divided into subtopics, and our aim has been to provide annotated references to the best and most useful literature on the most important aspects of race relations and the black community in the United States.
