Age-friendly and Disability-friendly Official Community Plans. This guide was developed in support of Accessibility 2024. Acknowledgements. The guide Age-friendly and Disability-friendly Official Community Plans was developed by the Ministry of Community, Sport & Cultural Development & Responsible for TransLink with assistance and input from the following ministries and organizations:

In an age-friendly community, the policies, services and structures related to the physical and social environment are designed to help seniors “age actively.” In other words, the community is set up to help seniors live safely, enjoy good health and stay involved. Complete Streets. Capturing how age-friendly communities foster positive health, social participation and health equity: a study protocol of key components and processes that promote population health in aging Canadians. BMC Public Health, Vol. 17, Issue. 1  These findings suggest that communities are generally responsive to the needs of their older residents. That different results were obtained for the various age-friendly domains underscores the importance of considering age-friendliness in a holistic way and measuring it in terms of a range of community features. Exploring the age-friendliness of purpose-built retirement communities: evidence from England. An informed and engaged Oxford and Oxford Township community where residents have convenient access to multiple channels of communication for receiving and sharing up-to-date information about local news, events, announcement, and services. These channels of communication will include methods of communication for those who do not have smart phones or computers. An informed community is an engaged community! Age-Friendly Oxford Community Needs Assessment: Report to the Age-Friendly Oxford Leadership Advisory Group (May 2019). Age-Friendly Oxford: A Qualitative Study Conducted by the Miami University First Year Research Experience (FYRE) Class of 2017-18 (May 2018). AARP Policy Book 2019-2020.
